

The most exhilarating moment in education is when a child finds something they love - **learning is ignited.**

Feed curious minds.

Curious World taps into each child's natural curiosity and encourages play, exploration, and practice. With over 1,500 fun and educational ebooks, games and short-form videos, this app and accompanying website ensures that all young children will find something that interests them and keeps them engaged.

All content is curated by early learning experts and mapped to **eight key early learning areas:**

Creative Expression

Language & Literacy

Math

Science

Family & Community

Executive Function

Social & Emotional

Health & Well-Being

Content supports what children will learn in school from pre-K through 2nd grade and is relevant to young learners.

Curious World is child-driven – kids can choose content they love by searching topics that interest them. The app follows their interests and gives them more of the things they want to see.

The parent / teacher dashboard tracks a child's interests and time spent.

curiousworld.com

Curious World offers:

- Unique, trusted content from an educational leader
- Valuable device/screen time
- A safe and ad-free environment
- A place for teachers and parents to see and support a child's interests
