

What are the parts of the brain?

Lesson Review

PART A Label the parts of the brain on the diagram shown. Write the correct terms in the spaces provided.

PART B Complete the following. Use additional paper as needed.

1. What is the main job of the brain? _____
2. What is the name of the largest part of the brain? _____
3. What are the two jobs of the largest part of the brain? _____
4. What is the main job of the cerebellum? _____
5. What is the lower part of the brainstem called? _____
6. What is the main job of the lower part of the brainstem? _____

Skill Challenge

Skills: *identifying, classifying*

Decide which part of the brain controls each activity listed. Identify the part by placing a check mark in the correct column.

FUNCTIONS OF THE BRAIN			
Activity	Cerebrum	Cerebellum	Medulla
1. Memory			
2. Sense of smell			
3. Walking			
4. Breathing			
5. Swimming			
6. Heart rate			
7. Taste			
8. Learning			

Answer Key

What are the parts of the brain?

Lesson Review

PART A

1. cerebrum 2. brain stem 3. cerebellum 4. medulla

PART B

1. to receive, interpret, and react to messages
2. the cerebrum
3. to interpret messages from the sense organs and to control thinking
4. to control body movements and to maintain balance
5. the medulla
6. to control digestion, breathing, heartbeat rate, and the activities of many glands

Skill Challenge

1. Cerebrum 2. Cerebrum 3. Cerebellum
4. Medulla 5. Cerebellum 6. Medulla 7. Cerebrum
8. Cerebrum
