CENTRAL IDEAS WORKSHEET

Directions: In the grid below, we have given a central idea for the reading about Marcos Milla. Your job is to find three ideas or details that support the central idea. Lastly, write a short summary of what you learned.

<p>Central Idea:</p> <p>Being a pharmaceutical scientist has many responsibilities.</p>	<p>Supporting Idea: Ex: "On a typical day at work, Mr. Milla meets with his team. They discuss results of the lab experiments that they are running. He also meets with leaders of other research teams. He meets with managers of other divisions in the company."</p>
<p>Supporting Idea:</p>	<p>Supporting Idea:</p>

Summary:

Objective: Students will organize their thoughts for a brief summary of the reading.

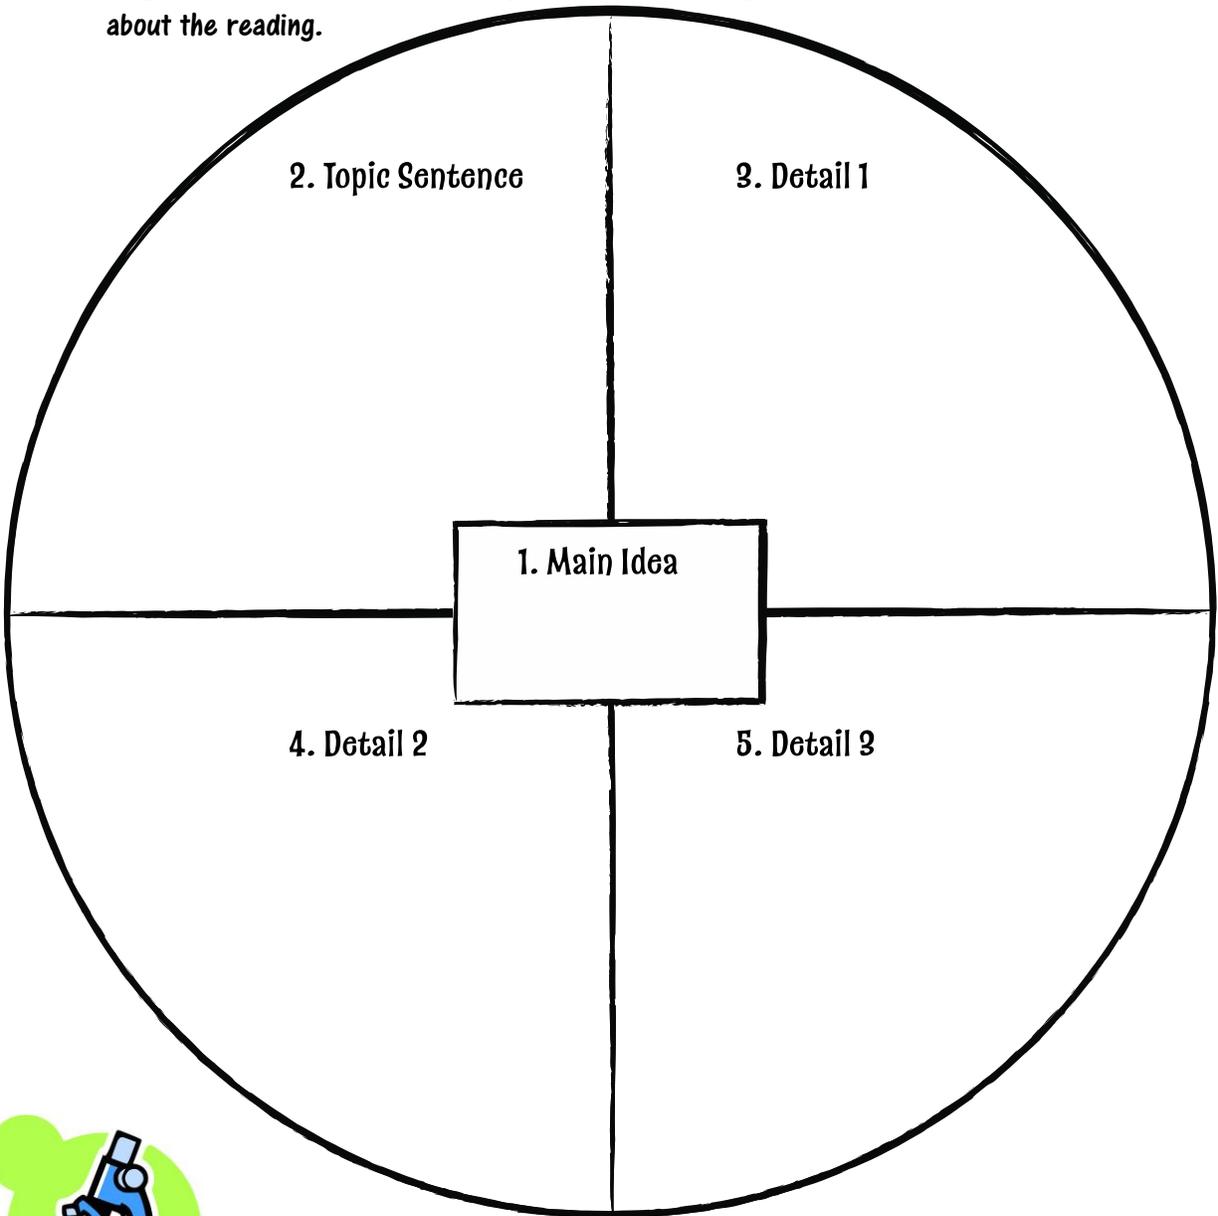

Name: _____

Date: _____

MAIN IDEA WORKSHEET

Directions: Find the main idea of the reading. For example, “There are many career opportunities in pharmaceutical science.” Then, write a topic sentence and write three key details from the reading that support the main idea. An example of a detail could be, “Pharmaceutical scientists work in all stages of the development, testing, and manufacturing of new medicines.” Lastly, write a summary about the reading.

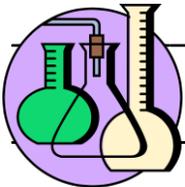

Name: _____

Date: _____

Now write a summary about the reading!

A large rectangular area enclosed by a dashed border, containing 18 horizontal lines for writing a summary.
